Protections for this product

>

 **Delivery via Alibaba.com** Logistics

Expect your order to be delivered before  
scheduled dates or receive a 10% delay  
compensation

 **Secure payments**

Every payment you make on Alibaba.com is  
secured with strict SSL encryption and PCI DSS  
data protection protocols

 **Standard refund policy**

Claim a refund if your order doesn't ship, is  
missing, or arrives with product issues

Alibaba.com protects all your orders placed and paid on the  
platform with  **Trade Assurance**

About this product

Includes generated contents ⓘ

- **High-Torque Performance:** The HANPOSE 17HS4401 stepper motor boasts a holding torque of 40N.cm, making it ideal for demanding applications such as 3D printing. This level of torque ensures smooth and precise movements, even at high speeds.
- **Certified Quality:** This product meets international safety standards with CE, FCC, and RoHS certifications, providing assurance of its reliability and safety for use in various applications.
- **Energy Efficiency:** With a 1.5A current per phase, this motor operates efficiently, reducing energy consumption and heat generation, which is perfect for 3D printing applications.
- **Durable Construction:** The motor's hybrid design and 5mm shaft ensure its durability and long lifespan, allowing for prolonged use in demanding environments.
- **Warranty and Support:** As a valued customer, you can enjoy a 3-month to 1-year warranty, providing peace of mind and dedicated support from the manufacturer.
